STAT		
	You asked that I mention this to you again today.	
STAT	called me regarding the task force report prepared for President Kennedy regarding State Department Operations Overseas and in Washington which we had received from John Sharon and then sent to DD/P to retain. Mr. Bissell's office passed this to since it is of interest to him. added that it would be of interest to have 'in his library.'' In answer to query, I stated we had received only the one copy. I told I did not know how you would feel about our asking for another copy but that I would ask you and call him back. I don't know if the distribution on these reports was limited but each	ST ST 25 ST
	did have a number on it so I assume Mr. Sharon's office has a record of where each copy went. BLP (3 Mar 61)	:
